No Painting or Trimming Required.

IMPORTANT! THIS PRODUCT IS NOT DESIGNED FOR CHILDREN OR MINORS YOUNGER THAN 14 YEARS OLD. RESPONSIBLE ADULT SUPERVISION IS REQUIRED DURING OPERATION AND MAINTENANCE.

This is a high-performance model which is NOT intended for use on public roads or in congested areas where its operation may conflict with or disrupt pedestrian or vehicular traffic. Read all enclosed information before operating. Fully illustrated, step-by-step instructions describe adjustment, operation, and required maintenance procedures. This model should not be operated in a crowd, indoors or without adequate space. The vehicle is fully assembled, ready to run, and requires the following items for operation: 4 AA alkaline batteries. These are available from your hobby dealer. In an effort to continually upgrade our products, Traxxas reserves the right to make improvements and modifications to this model, which may not be reflected in the photographs and specifications printed on this box. Battery and charger style subject to change and may vary from photos.

1/16 SUMMIT

4WD

Waterproof, All-Terrain 4-Wheel Drive Fun!

Leave it to Traxxas to stuff a 1/10 scale motor into a 1/16 scale truck! Summit's mighty Titan 12T 550 motor delivers nearly limitless torque for tire-scorching acceleration and all-terrain capability. The Traxxas XL-2.5 Electronic Speed Control provides precise throttle control in all weather conditions thanks to its waterproof design and innovative features. Patented Traxxas Training Mode™ reduces power by 50%, allowing young or new drivers develop their skills. Summit's oversized Canyon AT tires provide massive grip while its inboard rocker arm suspension and oil-filled GTR shocks provide long travel and smooth damping. The Summit comes Ready to Race® with a 2.4GHz radio for glitch-free operation, powerful 7.2V NiMH battery, and a convenient AC wall-outlet charger.

Waterproof Steering Servo

Ball-Bearing Transmission with Slipper Clutch

Summit's high-efficiency, heavy-duty transmission is built for serious power. An adjustable slipper clutch lets you tailor power delivery to suit the terrain and your driving style, and precision ball-bearings make certain every watt of Titan 550 power is turned into pure speed.

Sealed Differentials

Sealed, silicone-filled differentials resist "unloading" for superior off-road performance with full tuneability. It's another Traxxas first in this size category. Optional lockers (sold separately) provide the ultimate in climbing traction for built rigs dedicated for crawling.

Super Duty Dual-CV Telescoping Driveshafts

To withstand massive torque loads, Summit is equipped with the toughest Traxxas driveshafts ever. The smooth-sliding, CV-style joints, and true-curvilinear splines were scaled down from the 1/10 Summit to handle the demands of brutal horsepower and serious off-road action.

TRAXXAS

WHAT'S IN THE BOX:

- 1 1/16 Summit, Ready-To-Drive® with Prographix™ Body
- 2 XL-2.5 Waterproof Electronic Speed Control
- 3 Titan 12T Motor
- 4 TQ™ 2.4GHz Transmitter with receiver
- 5 7.2V NiMH Traxxas Power Cell battery with iD
- 6 NiMH-Only Battery charger
- 7 Quality tool set
- 8 Quick Start Guide

What You'll Need to Run Your Model:

4 AA Alkaline Batteries

Sold separately at your hobby dealer.
